...too easy!

asphalt in a bag

Permanent Pothole Solutions would like to introduce you to the most cost effective and simple way to repair potholes or cracks in asphalt.

Asphalt in a Bag is an easy to use and very effective means of doing road repairs. Asphalt in a Bag comes in a 20kg bag for your convenience.

Coverage

1 x 20kg bag of Asphalt in a bag Permanent Cold Patch will cover approx ½ a square metre at 22mm thickness.

Technical Details

This ready-to-use pre-mix bituminous mixture is manufactured from selective aggregates, bitumen and a co-polymer creating a tenacious bonding material for permanent use and repairs. The curing is activated by impact and it will bond to asphalt, concrete, steel and even wood.

Temperature Range

Asphalt in a Bag is an all weather road repair solution. It can be applied at -26 degrees Celsius and will perform just as well during hot and rainy days at temperatures reaching 49 degrees Celsius.

Lifetime Performance Guarantee

Asphalt in a Bag permanent cold patch when applied according to manufacturers specifications is guaranteed to adhere permanently to the repair or until the surrounding pavement area fails.

Asphalt in a Bag will replace actual tonnage of Asphalt in a Bag at no charge for any of the product that should ever ravel or release from the repaired area.

9 Good Reasons to choose asphalt in a bag

- Asphalt in a Bag is a **permanent** repair solution because of its ability to expand and contract with road's surface.
- The curing process for Asphalt in a bag is activated by impact.
- Asphalt in a Bag will bond to asphalt, concrete, steel and even wood.
- Asphalt in a Bag can be stored for long periods of time in a bagged or unbagged state.
- Asphalt in a Bag can be used in any weather conditions and also to wet areas such as potholes full of water.
- NO pre-coating or tack coating is required with Asphalt in a Bag.
- Asphalt in a Bag application is 5 times faster than the average solution which can be exposed to traffic immediately.
- Available in 7 gauge, 10 gauge and 14 gauge mix to cater for different road grades throughout Australia.
- Available in 20kg bags, 1 tonne bulker bags and loose by the truck load.
